DIGITAL CHEF: INTERACTIVE ENGLISH IN THE KITCHEN

Course	English	Grade	8th Grade	Duration	4 lesson hours (4x40')

Overview

This learning scenario is designed to enhance the students' language skills within the context of cooking, focusing on describing processes, expressing preferences, and making simple inquiries. The activities are structured to promote speaking, writing, listening, and reading, with an emphasis on kitchen-related vocabulary. The students will engage in interactive tasks that encourage them to use language in practical, real-life situations, such as following cooking instructions, asking about ingredients, and sharing their preferences for certain dishes. Through activities such as matching kitchen actions to images and forming sentences using given words, the students practise both their speaking and writing skills. Additionally, tasks like typing the correct words based on pictures help reinforce spelling and vocabulary recall. The scenario incorporates web tools for matching activities, short answer questions,

Learning Goals

Students

- Articulate recipe steps with precise culinary vocabulary.
- Convey food preferences eloquently using descriptive phrases.
- Inquire and respond about ingredients and cooking procedures.

Course Objectives

- E8.3.L1. Students will be able to get the gist of short, clear, simple descriptions of a process.
- E8.3.SI1. Students will be able to ask and answer questions and exchange ideas and information on a topic related to how something is processed.
- E8.3.SP1. Students will be able to give a simple description about a process.
- E8.3.R1. Students will be able to understand the overall meaning of short texts about a process.
- E8.3.R2. Students will be able to guess the meaning of unknown words from the text.

- Communication
- Cultural Awareness
- Active listening

PREPARATION

Learning Approaches, Methods, Strategies

- Cooperative learning
- Gamification
- Storytelling

Tasks

Teacher

- Prepares all materials and activities before the lesson (e.g. digital tools, quizzes, stories, and games). Implements interactive tools such as digital stories and quizzes to engage students.
- Guides the students through activities with clear instructions.
- Provides support and clarification on vocabulary and concepts.
- Cultivates a dynamic learning environment by encouraging participation.
- Monitors performance and provides constructive feedback.
- Inspires the students to ask questions, collaborate, and actively engage.

Student

- Collaborates with teammates in group activities, sharing ideas and assisting with tasks.
- Utilises digital tools for quizzes, story creation, and interactive presentations.
- Engages in online activities to enhance learning.
- Communicates proficiently with peers and teachers, using kitchen vocabulary and cooking actions.
- Joins in the activities to gain digital competence.

Instructional Tools/ Technologies

Hardware

- Interactive whiteboard

Online Tools

- eba.gov.tr
- Web tools for matching activities
- Web tools for short answer questions
- Gamification web tools
-

Instructional Materials/ Tools

APPLICATION

Activities

Before the Lesson

The students are required to complete the Vocabulary Exercise 1: In the Kitchen activity on EBA. The teacher prepares a Healthy Salad recipe using one of the digital story creation tools (Annex-1). Additionally, an activity titled Kitchen Action Match-Up is created with one of the web tools for matching exercises.

Lesson 1 (Class)

Pre-Activity

The teacher informs the students that they will be playing the "Whisper Challenge" game with added music and dance elements for extra fun. The class is divided into two teams, and with music playing, the teacher whispers sentences to the team leaders, such as "I love Dubai chocolate, but I don't like

Lesson 2 (IT Class)

Pre-Activity

The teacher explains to the students that they will take a short interactive Digital Chef Quiz using one of the gamified measurement and evaluation web tools to test their knowledge of kitchen-related English vocabulary and cooking actions (Annex-2). This engaging, digital quiz introduces key vocabulary and concepts in a fun, gamified way. Once all the questions are completed, the teacher reviews the quiz together with the class, discussing the correct answers and clarifying any new vocabulary or concepts.

While Activity

After the activity, the students read Dubai Chocolate Delight with the Digital Chef

While Activity

Following the game, the teacher asks the students to form sentences in the The Kitchen Spin activity, which includes words such as dice, add, peel, etc. The teacher spins the wheel, and based on the two words that appear, the students are required to make a sentence. This activity encourages the students to practise speaking by using the given words to form sentences related to the kitchen and cooking.

Post-Activity

Following the speaking activity, the teacher transitions to the Guess & Type activity, which includes words such as add, melt, bake, etc. The students are required to look at the pictures and type the corresponding words. They see the first letter of each word as a hint, which helps them recall and write the correct word. This activity focuses on writing skills, reinforcing vocabulary and spelling through a fun, interactive exercise.

Before the Lesson

The teacher creates a Kitchen Dart Challenge using one of the gamified measurement and evaluation web tools (Annex-4). The teacher also prepares an Ingredients, Actions & Tools activity using a web tool for matching exercises (Annex-5). Additionally, the teacher designs an Actions Quiz using a web tool for multiple-choice questions (Annex-6). The teacher developes an evaluation form to provide a structured and consistent way to assess the students' interactive presentations (Annex-7).

Pre-Activity

The teacher explains to the students that they will take the Kitchen Dart Challenge (Annex-4) to test

Homework/Assignment

The teacher assigns the students to create an interactive presentation, including a recipe list and step by step instructions for a dish of their choice. The recipe presentation evaluation form will be used to assess the students' creations (Annex-7). The students are encouraged to make the presentation visually engaging by adding images, icons, or animations to illustrate each ingredient and cooking step. This assignment allows the students to practise both digital skills and language, as they describe the recipe process in an interactive format. After completing the task, the students will submit their presentation to the teacher using one of the classroom management tools designated by the teacher.

Related Skills: Collaboration, Creativity, Critical thinking, Digital skills, Communication

Evaluation/Assessment Methods/Tools

- EBA + vocabulary exercise
- Web tools for matching activities
- Web tools for short answer questions
- Web tools for multiple-choice questions
- Gamified measurement and evaluation web tools
- Recipe presentation evaluation form
