GENERAL DIRECTORATE

DIGITAL MEET &GREET

Course	English	Grade	5th Grade	Duration	3 lesson hours (3x40')

This scenario is designed to assist teachers in providing an effective learning experience utilising technology. The teacher may utilise this scenario, which is presented as an exemplar, or adapt it to align with the specific requirements of the students and the physical conditions of the educational institution.

Overview

This learning scenario emphasises developing key communication skills related to countries, nationalities, and personal information. The students learn to understand and exchange simple personal details, introduce themselves, and meet others. They also develop reading and interpretation skills to manage personal and academic activities effectively. The scenario integrates digital tools for an interactive learning environment. Through various activities, the teacher fosters communication, collaboration, and cultural awareness. The students practise recalling personal information, exploring different cultures, and discussing preferences. These activities encourage teamwork and interaction, focusing on speaking and listening skills. The learning scenario includes comprehension tasks and digital storytelling to reinforce understanding and enhance digital literacy and communication skills. This approach promotes active participation and a positive classroom atmosphere. The scenario employs diverse digital assessment tools to evaluate the students' understanding of countries, nationalities, and personal information. These tools include EBA vocabulary exercises, web-based matching activities, multiple-choice questions, and fill-in-the-blank prompts, creating a comprehensive assessment experience within a digital learning environment. This scenario also incorporates cooperative learning, storytelling, and task-based learning approaches, ensuring that the students actively engage in meaningful tasks, collaborate with peers, and express themselves through creative digital storytelling activities.

Key Concepts: Countries, Nationalities, Likes and dislikes

Learning Goals

Students

- Identify and respond to simple personal information (e.g. name, age, hobbies) in writing and speech.
- Apply basic phrases to confidently introduce themselves in face-to-face or digital communication.

- Exchange simple personal information via digital platforms or in face-to-face conversations.
- Read and interpret stories, dialogues and comics that focus on personal information and character interactions.
- Review and comprehend their daily or weekly timetable.

Course Objectives

- E5.1.L1. Students will be able to understand simple personal information.
- E5.1.S1. Students will be able to introduce themselves and meet other people.
- E5.1.S2. Students will be able to exchange simple personal information.
- E5.1.R1. Students will be able to read picture stories, conversations and cartoons about personal information.
- E5.1.R2. Students will be able to read their timetable for their lessons.
- E6.9.W1. Students will be able to write simple pieces about the protection of the environment.

Related Skills

- Digital skills
- Collaboration
- Cultural awareness
- Critical thinking
- Creativity

PREPARATION

Learning Approaches, Methods, Strategies

- Cooperative learning
- Storytelling
- Task-based learning

Tasks

Teacher

- Guides and supports the students in effectively using digital tools.
- Introduces and practises target phrases and structures for greetings and expressing likes/dislikes.
- Creates digital resources, online platforms and quizzes or activities to enhance the content.
- Monitors the students during tasks and offers assistance and feedback.

Student

- Engages in learning activities by creating presentations, recording videos, taking quizzes, and participating in discussion and group work.
- Works with peers to share and review digital identity cards, videos, and other digital content.
- Creates and shares digital learning materials, such as ID cards or posters.
- Asks and answers questions about personal information, likes and dislikes, and other related topics during discussions and activities.

Instructional Tools/Technologies

The web tools provided in this scenario are offered as examples. Teachers are free to select and apply any tool they see fit, according to the web tools category. It is recommended that teachers review the web tool in question before use and have a good understanding of the tool's interface.

Hardware

- Interactive whiteboard

Online Tools

- eba.gov.tr
- Interactive presentation tools
- Digital story creation tools
- Web tools for matching activities
- Web tools for multiple-choice questions
- Web tools for fill-in-the-blank questions

Instructional Materials

- Find someone who form
- Likes and dislikes list form
- Hourglass
- Dream Passport template
- A ball

APPLICATION

Activities

Before the Lesson

The teacher is required to prepare various digital tools to enhance the student engagement and learning. First, the class is divided into two teams for a memory game, where students practise recalling names and personal information, fostering language skills and a positive classroom environment. Following this, an activity titled Countries is prepared using web tools for matching activities, allowing the students to connect countries with their corresponding flags (Annex-1). Next a digital story titled My Friends Around the World is created using digital story creation tools, helping students to explore different cultures and preferences (Annex-2). Finally, the lesson concludes with comprehension questions to assess the students' understanding of the story. The teacher designs Multiple-Choice Questions using a web tool for multiple-choice questions (Annex-3).

Lesson 1 (Class)

Pre-Activity

The teacher introduces a memory game designed to enhance student engagement and recall of names and personal information. The class is divided into two teams. Upbeat music plays while the students pass a soft ball around the circle. When the music stops, the student holding the ball shares their name and a personal fact (e.g. "My name is Mary, and I love ice cream.").

Each subsequent student must repeat the previous the student's name and fact before adding their own. This process continues around the class, creating a lively atmosphere that encourages active participation. The memory game helps the students learn names, practise speaking and listening, and fosters a positive, comfortable classroom environment.

While Activity

Following the memory game, the teacher introduces the Countries matching activity. In this task, the students are asked to match countries with their corresponding flags (Annex-1). After the flag matching activity, the teacher introduces the digital story My Friends Around the World (Annex-2). The students improve their reading skills and enhance their awareness of cultural differences, personal preferences and cultural interactions while reading the story.

Post-Activity

Following the digital story activity, the teacher moves on to comprehension questions. These Multiple-Choice Questions are directly related to "My Friends Around the World" story, helping the students check their understanding of the content, including the countries, preferences, and interactions mentioned in the story (Annex-3).

Related Skills: Collaboration, Digital skills, Cultural awareness

Before the Lesson

Prior to the class, the teacher is required to create forms using interactive presentation tools: a digital handout and a photocopy version for the students. The first form is a Find Someone Who exercise using a digital handout or form created with interactive presentation tools (Annex-4). The second form is a list of Likes and Dislikes includes various school subjects, hobbies, or activities (e.g. favourite class, hobby, or food) (Annex-5). These forms are displayed on the interactive whiteboard and also provided to the students as photocopies.

Lesson 2 (Class)

Pre-Activity

The teacher presents the Find Someone Who activity in both digital and print formats (Annex-4). The digital version was displayed on the interactive whiteboard, and printed copies were provided to the students. The students move around the classroom ,using prompts from the form, such as "Find someone who likes English" to interact with classmates and complete their worksheets. Each student can only sign one box on another classmate's form, promoting interaction among all the students. To make the activity more playful and high-energy, the students can perform a fun movement before signing a box, such as doing a quick dance move or doing a high five. After the activity, the teacher asks the students to share some of the answers they discovered, which helps reinforce the information and encourages class discussion.

While Activity

Following the activity, the students are asked to pair up with a classmate for a speaking exercise. Each student should use their 'Find Someone Who' form to discuss their likes and dislikes with their partner. The teacher asks the students to use full sentences to describe their likes and dislikes, such as "Ali likes English." or "Elif doesn't like Math." They should share what they discovered about their preferences and dislikes from the form, and then take turns discussing their own likes and dislikes. For example, one student might say, "I found out that (Name) likes pizza. I also like pizza, but I dislike sushi. What about you? What do you like and dislike?" This exercise helps the students practise speaking in a more personal context.

Post-Activity

Following the activity, the students are invited to create an emoji story about themselves. They introduce themselves and use emojis to represent their likes and dislikes. The teacher displays the Likes and Dislikes list on the interactive whiteboard (Annex-5). This list includes various school subjects, hobbies or activities etc. The students choose some likes/dislikes that best reflect their preferences, like their favourite class, hobby, or food, and write a short sentence about each one, such as "I like Maths, but I dislike Music." They then share their emoji stories with their partners or the class.

Related Skills: Digital skills, Communication, Critical thinking

Before the Lesson

The teacher asks the students to complete Vocabulary Exercise 1: Hello! activity on EBA. Cards with country names and corresponding nationalities are prepared by the teacher. For the following activity, the teacher designs an activity titled Mary and Hans using a web tool for fill-in-the-blank questions (Annex-6). The teacher prepares another activity titled Countries and Nationalities using a web tool for matching activities and asks the students to listen to the sounds and place the words in the correct groups. "Dream Passport" templates are prepared by the teacher and distributed to the students, who are then asked to fill them in according to their own dreams (Annex-7).

Lesson 3 (Class)

Pre-Activity

The teacher uses cards with the names of countries and nationalities, shuffles them and distributes them to the students. The class is divided into teams and a race is organised using an hourglass. Each student runs to the front of the class, chooses a card and runs back to their team to match it. The next team member can only go after completing the previous task. To enhance the learning experience, the students may engage in physical challenges such as jumping on one foot or walking backwards while competing with their peers. Each team matches pairs of countries and nationalities (e.g.,Japan-Japanese) and shares an interesting fact about the country. The team that matches the most pairs correctly within the time limit wins. This activity helps students learn about countries and nationalities while practising matching skills in a fun, active and competitive way.

While Activity

The teacher introduces an exercise with incomplete sentences about Mary and Hans, accompanied by relevant images (Annex-6). The students are required to complete the sentences based on the visuals provided. This exercise reinforces their understanding of personal details and preferences while practicing fill-in-the-blank tasks. In the Countries and Nationalities activity, the teacher plays an audio recording that mentions various country names and corresponding nationalities. The students are then required to categorise the words they hear by placing them in the correct group, either as a country or a nationality.

Post-Activity

The students are given a passport template with sections for different countries (Annex-7). Each student inscribes their name on the passport and selects a country they aspire to visit. They research their country, gathering information on notable traditions, landmarks, and heritage. They then fill out their passports with the information they gathered. Each student presents their completed passport to the class.

Homework/Assignment

As an assignment, the students will create a digital story introducing themselves, expressing their likes and dislikes, and making simple inquiries about their school or hobbies. The teacher explains how to use digital story creation tools to create a simple digital story using text, images, and icons. The focus should be on using the target phrases from the lesson (e.g. "My name is...", "I like..." or "I study at..."). The teacher will assess the digital stories based on the following criteria: the effectiveness of the target phrases used, creativity, language accuracy, and overall presentation quality. The guideline of the homework is shared with the students (Annex-8).

Related Skills: Digital skills, Communication, Collaboration, Cultural awareness

Evaluation/Assessment Methods/Tools

- EBA + vocabulary exercise
- Web tools for matching activities
- Web tools for multiple-choice questions
- Web tools for fill-in-the-blank questions
- Digital story homework evaluation

The Transcript of 'My Friends Around the World' Digital Story

Description: The teacher creates a digital story using one of the digital story creation tools, including the following speech bubbles.

Hi! My name is Ayşe. I'm from Türkiye. I love Turkish tea.

I love eTwinning projects and I have friends from different countries. I want to introduce them.

My name is Yuki. I'm from Japan. I love sushi.

Hello! I'm Luis. I'm from Madrid, Spain. I love football! My favourite team is Real Madrid.

Hello! My name is Sofia. I'm from Rome, Italy. I love pizza.

Hi! I'm Lucas. I'm from Paris, France. I love macarons.

Multiple-Choice Questions

Read the questions below and mark the correct option.

1. Who is from Türkiye?
A) Ayşe
B) Luis
C) Sofia
D) Yuki

2. What does Ayşe love?
A) Macarons
B) Pizza
C) Sushi
D) Turkish tea

3. What does Sofia love?
A) Football
B) Macarons
C) Pizza
D) Turkish tea

4. What does Luis love?
A) Football
B) Macarons
C) Pizza
D) Sushi

5. Which team is Luis's favourite?
A) FC Barcelona
B) Juventus
C) Real Madrid
D) Udinese

6. Where is Sofia from?
A) Madrid
B) Paris
C) Rome
D) Tokyo

7. Who loves sushi?
A) Ayşe
B) Lucas
C) Sofia
D) Yuki

8. What does Lucas love?
A) Football
B) Macarons
C) Pizza
D) Sushi

9. Who is from France?
A) Ayşe
B) Lucas
C) Luis
D) Yuki

10. Who is from Japan?
A) Lucas
B) Luis
C) Sofia
D) Yuki

Find Someone Who Exercise

Move around the classroom and talk to your classmates. When you find someone who matches a statement, write name. You can only write each classmate's name once!

Find someone whose favourite class is English.

Find someone whose favourite class is Maths.

Find someone who dislikes Music class.

Find someone who enjoys Physical Education.

Find someone who speaks two languages.

Find someone who enjoys Social Studies.

Find someone who has black, long hair.

Find someone who likes singing.

Find someone who dislikes football.

Likes and Dislikes Activity

Select 3 likes (✓) and 3 dislikes (X) that best represent you.

School Subjects	Hobbies	Activities
Art ☐	Painting ☐	Playing basketball ☐
History ☐	Playing the guitar ☐	Swimming ☐
Maths ☐	Photography ☐	Weightlifting ☐
English ☐	Surfing ☐	Running ☐
Science ☐	Singing ☐	Dancing ☐
Geography ☐	Cycling ☐	Cooking ☐
Drama ☐	Video games ☐	Puzzle-solving ☐
Music ☐	Drawing ☐	Fishing ☐

Mary and Hans Activity with Questions and Answers

Description: The teacher creates a fill-in-the-blank activity using a web tool for fill-in-the-blank questions, by adding the visual provided in the explanations.

Mary

The image shows a girl named Mary. Under the visual, the number 12 is displayed, indicating her age. There is also a United Kingdom flag to represent her nationality.
There are two sections next to the girl:
In the first section, there is a palette visual and a happy emoji indicating that Mary loves painting.
In the second section, there is a soccer ball visual and a dislike emoji indicating that Mary dislikes playing football.

Hans

The image shows a boy named Hans. Under the visual, the number 12 is displayed, indicating his age. There is also a German flag to represent his nationality. There are two sections next to the boy:
In the first section, there is a cake visual and a happy emoji indicating that Hans loves cake.
In the second section, there is a fish visual and a dislike emoji indicating that Hans dislikes eating fish.

Questions

Fill in the blanks.

(cake –eleven-England- fish-football-Germany-painting-twelve)

1. Mary is _____years old.

2. Hans is _____years old.

3. Mary is from _____.

4. Hans is from_____.

5. Mary likes_____but she dislikes_____.

6. Hans likes_____but he dislikes_____.

Answers

1 twelve
2 eleven
3 England
4 Germany
5 painting/football
6 cake/fish

Dream Passport Template

Choose a country to visit.
Find out fun things about the country, like food, places, and traditions.
After you gather all the information, add the details to your passport.

Passport Information

Dream Passport

Name: .....

Age: .....

Class: .....

Passport Number: .....

Date of Issue: .....

Country Information (Part 1)

Country Name: .....

Capital City: .....

Flag (Draw the flag or paste a picture of it):

Country Information (Part 2)

Famous Landmark(s):

(Draw or paste a picture of a famous landmark from the country)

Cultural Tradition(s):

(Describe any special traditions, holidays, or festivals from the country)

Final Details and Presentation

Language(s) Spoken: .....

Interesting Fact(s): .....
(Any additional fun facts or historical information)

Why I Chose This Country:
.....
(Explain why you chose to visit this country in your dream)

Popular Food: .....

The Guideline of Homework

You will create a digital story to introduce yourself, share your likes and dislikes, and ask a simple question about your school or hobbies.

Introduction:

Use interactive presentation tools (such as templates) to create a digital story.
Focus on target phrases from the lesson, such as “My name is… ”, “like/dislike…” and “I study at….”.
Your story should include an introduction, a section on likes and dislikes, and a simple question and answer.
Share your story with the class via a digital platform.

Suggestions:

Keep your digital story simple and clear.
Use visuals, such as icons and images, to make your presentation more engaging.
Be creative and have fun while expressing your personality!

Grading Criteria (Total: 100 Points):

Content (40 Points):

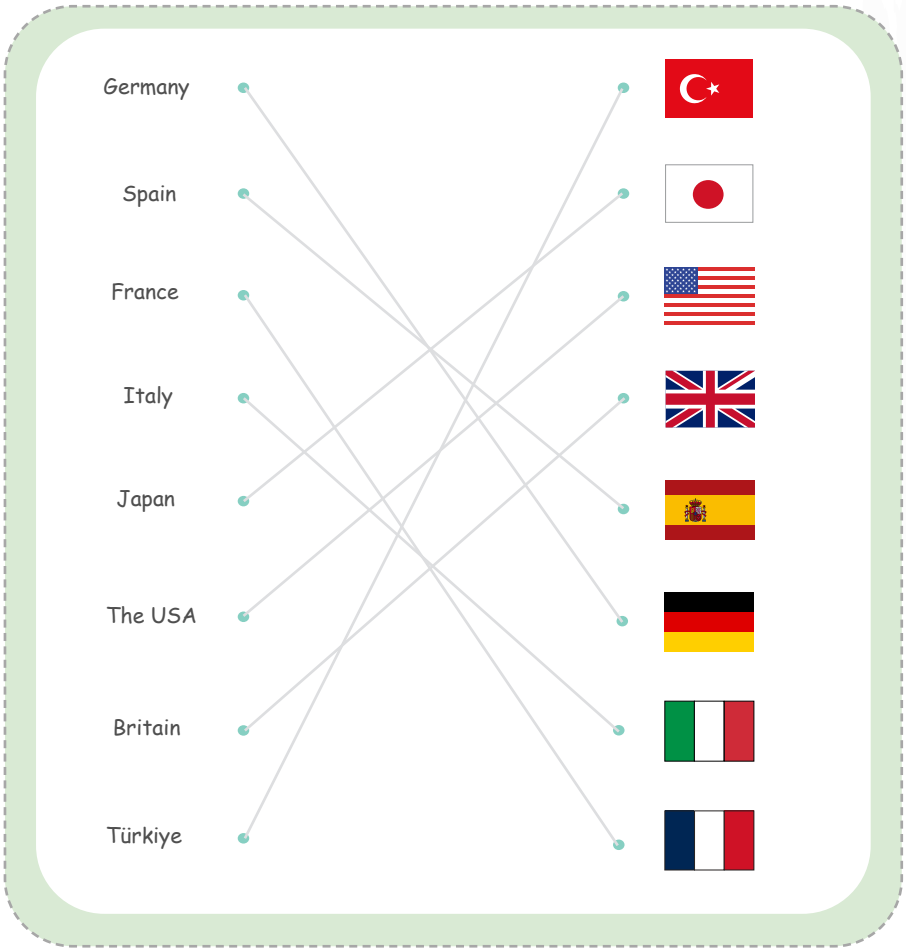

Creativity (20 Points):

Language Use (20 Points):

Presentation (20 Points):
