

HAPPY SCHOOL MOMENTS

ENGLISH | 5th GRADE | 3 LESSON HOURS (3×40') | SCHOOL LIFE

This scenario is designed to assist teachers in providing an effective learning experience utilising technology. The teacher may utilise this scenario, which is presented as an exemplar, or adapt it to align with the specific requirements of the students and the physical conditions of the educational institution.

Overview

This learning scenario is designed to develop the students' school life vocabulary (places, clubs, and rules) through technology-supported, interactive, and communicative activities. The learning process is structured around listening, speaking, writing, and vocabulary practice using songs, EBA digital content, games, and guided tasks. Throughout the scenario, the interactive whiteboard, EBA, artificial intelligence powered tools, digital story creation tools, word cloud creation tools, web tools for instant feedback, visual creation and editing tools, and gamified measurement and evaluation web tools are used to support individual, pair, and group learning tasks. The teacher designs and facilitates all activities integrating songs, TPR (Total physical response) actions, and realia-based listening. The teacher guides the students, models target language use, asks guiding questions, monitors participation, and provides continuous feedback during tasks. The students actively participate in all stages by listening to songs and texts, following TPR movements, completing interactive EBA tasks, engaging with realia-supported listening, and participating in group games. They also produce short written texts using guided templates and express simple ideas in speaking activities. The 'Our School Life Song' and TPR activities support listening/watching-comprehension, and playfulness, helping the students understand and recall basic school-related vocabulary. EBA interactive matching and animation activities support digital literacy, visual literacy and inference skills, enabling the students to interact with multimedia content, match visuals with vocabulary, and follow audio-visual instructions in a meaningful context. The listening activity with realia supports listening/watching-comprehension, enabling the students to understand key information connecting spoken language with visual and real-world cues.

Key Concepts

- School life, School places, School clubs, School rules

- ENG.5.1.G1. Students can select and use the target grammatical elements of the current content about “school life with people, places and rules at school; school clubs; countries; national days and celebrations” accurately, authentically, spontaneously, and naturally and use it appropriately and effectively when communicating with others. (a, b, c, d, e, f, g, h, i, j)
- ENG.5.1. W3. Students can organise a content for the assigned writing task on the current content “school life with people, places and rules at school; school clubs; countries; national days and celebrations” based on the model/example provided. (a, b, c)
- ENG.5.1. S5. Students can reorganise (reconstruct) and use information about the “school life with people, places and rules at school; school clubs; countries; national days and celebrations” to communicate with other people. (a, b)

Framework for Skills

- CS2.10. Inference skill
- CS2.11. Observation-based prediction skill
- CS3.3. Critical thinking skill
- FLFS1. Listening/Watching-comprehension
- FLFS2. Reading-comprehension
- FLFS3. Speaking-expression
- FLFS4. Writing-expression
- FLSS1. Grammaring: Selection and use
- FLSS2. Vocabulary: Selection and use
- FLSS3. Pronunciation: Selection and use
- D1.1. Curiosity
- D2.5. Playfulness
- D3.3. Creativity
- SELS1.3. Self-reflection skill
- SELS2.1. Communication skill
- SELS2.2. Cooperation skill
- LS2. Digital literacy
- LS4. Visual literacy

Tasks

Teacher

- Uses TPR, songs, and vocabulary to activate prior knowledge and teach school-related vocabulary.
- Selects EBA content and prepares digital activities.
- Supports the students' listening comprehension through visual materials, realia and guiding questions.
- Facilitates writing and speaking activities and provides feedback.
- Organises group games and interactive tasks to support participation and motivation.

Student

- Participates in vocabulary games and TPR activities to learn and revise key words.
- Completes listening tasks using EBA content and visual/audio support.
- Writes short, guided texts using the template.
- Shares ideas and answers during speaking activities.
- Works in groups and participates in interactive games and quizzes.
- Completes creative assignments and uploads them to EBA.

Instructional Tools/ Technologies

The web tools provided in this scenario are offered as examples. Teachers are free to select and apply any tool they see fit, according to the web tools category. It is recommended that teachers review the web tool in question before use and have a good understanding of the tool's interface.

Hardware

- Interactive whiteboard

Online Tools

- eba.gov.tr
- Artificial intelligence powered tools
- Digital story creation tools
- Web tools for instant feedback
- Visual creation and editing tools
- Gamified measurement and evaluation web tools
- Word cloud creation tools

Learning Activities

Before the Lesson

The teacher creates a song titled Our School Life Song-Track using one of the artificial intelligence powered tools. Then, the teacher selects an appropriate content titled School Life Integrated Skills I from EBA in line with the lesson outcomes. The teacher prepares a word cloud titled School Life Word Cloud using one of the word cloud creation tools.

Lesson 1 (Class)

Pre-Activity

The teacher plays the Our School Life Song-Track and first demonstrates TPR movements for key actions in the song. For example, the teacher walks in place for 'walk through the gate', mimes reading for 'library', pretends eating for 'canteen', and lines up for 'line up'. After modelling each movement, the teacher asks the students to imitate the actions while listening to the song. The students follow the teacher's gestures and repeat the movements throughout the song, helping them understand new vocabulary in an enjoyable,

Post-Activity

The teacher displays the School Life Word Cloud on the interactive whiteboard for 30 seconds and asks the students to look carefully and remember as many words as possible. The teacher then hides the word cloud and divides the class into two or three groups. The groups take turns saying one word they remember. They have five seconds to respond and cannot repeat a word that has already been given. A different student answers on each turn, and every correct and clearly pronounced word earns one point. When the groups cannot remember any more words, the teacher displays the word cloud again. The students identify the words they missed and pronounce them together. The teacher briefly checks their meanings and provides feedback when necessary. The group with the highest score wins the game.

Before the Lesson

The teacher prepares an activity titled Sunshine International School using one of the digital story creation tools (Annex-1). The teacher also designs follow-up questions and interactive quiz items for the post-listening stage under the title Sunshine School Quiz, including multiple-choice, true-false, and drag-and-drop activities, using one of the web tools for instant feedback.

Lesson 2 (Class)

Pre-Activity

The teacher uses a short energiser game called 'Jump to the Word' to activate the students' attention and review key vocabulary from the 'School Life' theme. The teacher says different words related and unrelated to school (e.g. library, canteen, science lab, book, car). When the students hear a school-related word, they

While Activity

To draw the students' attention to the topic, the teacher could use realia related to school life such as a small musical instrument for the music club, coloured pencils or paints for the art club, a book for the library, and simple lab materials like a test tube for the science lab and place them on the table before the listening activity. Without stopping or interrupting the audio, the teacher briefly points to each item when the related vocabulary appears in the Sunshine International School listening text, helping the students connect the words with real objects in a meaningful way (Annex-1). This supports comprehension while keeping the students focused on listening. After the listening, the teacher places the items on the table and asks simple questions such as 'Is this for the library or the canteen?' or 'Do we use this in the science lab or at home?', encouraging whole-class participation and reinforcing understanding of the main components of the theme 'school life.' The teacher asks the students simple critical thinking questions related to the 'Sunshine International School' listening text to encourage reflection and discussion such as 'What is school life like without clubs or rules?', and 'Would you like to study at Sunshine International School? Why or why not?'. The students share their ideas briefly with the class, helping them think about the importance of school places,

Lesson 3 (Class)

Pre-Activity

The teacher divides the class into two groups and launches the game Build Your Dream School on the interactive whiteboard. Each group plays the game separately and tries to complete all three rounds in the shortest possible time. When the first group is ready, the teacher starts the timer, and the students in the group take turns selecting a word and placing it under 'People at School', 'Places at School', or 'School Clubs'. The group briefly discusses each word before a different representative uses the board. After all six words in a round are categorised correctly, a new floor of the school is constructed. The timer stops when the group completes all 18 words, and its completion time is recorded. The teacher then restarts the game and follows the same procedure with the second group. The group with the shortest completion time wins. After both groups have completed the game, the teacher provides brief feedback on the meanings and pronunciation of the words. The teacher then asks, 'Which place at school is the most important for learning? Why?' and 'How do school clubs help students learn and work together?' The groups discuss the questions briefly and share their ideas with the class.
