

INNOVATION AND EDUCATIONAL TECHNOLOGIES
GENERAL DIRECTORATE

PLACES IN OUR NEIGHBOURHOOD

Course	English	Grade	7th Grade	Duration	4 lesson hours (4x40')

This scenario is designed to assist teachers in providing an effective learning experience utilising technology. The teacher may utilise this scenario, which is presented as an exemplar, or adapt it to align with the specific requirements of the students and the physical conditions of the educational institution.

Overview

This learning scenario on public buildings aims to provide the students with a comprehensive understanding of these important community spaces. The students will have the opportunity to enhance their communication and critical thinking skills as they engage with a range of public buildings through the utilisation of interactive technology. This will be achieved through activities that employ a variety of digital resources and online tools, including interactive presentations. To assess student learning, a variety of strategies will be implemented, including the use of EBA for grammar and vocabulary exercises, gamified activities to enhance engagement, web tools for instant feedback, peer and self-assessment forms, and the integration of technology to optimise the learning experience. By combining these assessment strategies and technology integration, the students will have opportunities to use digital tools effectively and engage in more dynamic and engaging learning experiences.

Learning Goals

Students

- Identify and name common public buildings in English, including their purposes, locations, and features.
- Comprehend simple descriptions of public buildings.
- Ask and answer basic questions about public buildings.
- Create a simple dialogue about visiting a public building.

Course Objectives

- E7.8.L1. Students will be able to recognize the names of the public buildings.
- E7.8.L2. Students will be able to understand explanations with reasons.
- E7.8.SI1. Students will be able to give explanations with reasons.
- E7.8.SP1. Students will be able to report on explanations with reasons.
- E7.8.R1. Students will be able to understand simple expressions and recognize familiar words about explanations with reasons.
- E7.8.W1. Students will be able to write pieces about explanations with reasons.

- Communication

PREPARATION

Learning Approaches, Methods, Strategies

- Cooperative learning
- Peer learning

Tasks

Teacher

- Creates an active learning environment.
- Guides the students during activities.
- Allows the students to discover their skills and abilities.
- Utilises technology effectively with innovative pedagogy.
- Encourages the students to take responsibility.
- Monitors the students' participation and understanding during the activities.

Student

- Demonstrates active engagement in the subject matter.
- Takes an active role in group work.
- Acquires the target gains determined in the individual and peer learning process.
- Participates in reading, writing, and discussion activities.
- Gains digital literacy via web tools.

Instructional Tools/Technologies

The web tools provided in this scenario are offered as examples. Teachers are free to select and apply any tool they see fit, according to the web tools category. It is recommended that teachers review the web tool in question before use and have a good understanding of the tool's interface.

Hardware

- Interactive whiteboard

Online Tools

- eba.gov.tr
- Interactive presentation tools
- Tools for creating digital boards or post-its
- Artificial intelligence powered tools
- Web tools for instant feedback
- Visual creation and editing tools

Instructional Materials

- Public buildings flashcards
- Worksheet
- Bingo cards

APPLICATION

Activities

Before the Lesson

The teacher uses one of the web tools for instant feedback to assess the students' prior knowledge. The teacher prepares a Buildings in My Neighbourhood vocabulary presentation consisting of public buildings (Annex-1).

Lesson 1 (IT Class)

Pre-Activity

The teacher introduces the concept of "public buildings" as those accessible to all. The teacher shares a link for an activity prepared by a web tool for instant feedback. The students list the types of public buildings they are familiar with, entering their responses directly into the tool. This collaborative activity allows the students to share ideas and learn from each other, while the teacher can assess their understanding and provide guidance.

While Activity

The teacher initiates the Buildings in My Neighbourhood vocabulary presentation consisting of several public buildings (Annex-1). Following the presentation, the students are informed that they will participate in a brief, interactive activity. The teacher requests that the students take notes on the public buildings that were presented. The individual with the most accurate responses will be declared the winner. The teacher then poses questions to the students to assess their comprehension and encourages them to discuss the material. Sample questions include, "Which buildings did you see?", "What is the purpose of people going there?" and "How often do you visit such places?" The teacher monitors the students' comprehension.

Post-Activity

To reinforce vocabulary related to public buildings and the use of "to" for expressing purpose, the teacher divides the class into teams using a tool for creating digital boards or post-its. The teacher provides each team with clues or riddles about different public buildings. The teams should search online for images of buildings that match the given clues and share them in their designated area. Once a team identifies a building, the teacher asks them to explain why they would visit it using the phrase "to...," for example, "We go to the bank to draw money." The teacher displays the tool for creating digital boards or post-its on the interactive whiteboard to ensure all groups' responses are visible. The lesson concludes with a review of all responses, followed by necessary corrections.

Related Skills: Collaboration, Communication, Digital skills

Before the Lesson

The teacher prepares Buildings Flashcards of the public buildings using Visual creation and editing tools and prints them before the lesson. The teacher prepares Bingo Cards with pictures of public buildings sing visual creation and editing tools (Annex-2).

Lesson 2 (Class)

Pre-Activity

The teacher displays the flashcards and wants the students to guess the names of the buildings. The teacher asks the students to discuss reasons why people visit these buildings. Then the teacher introduces, or reviews vocabulary related to public buildings and the purposes for visiting these buildings.

While Activity

The teacher divides the students into small groups and assigns each group a scenario where they have to visit a public building (e.g. planning a visit to a museum, or seeking information at a library). The students discuss and describe the building, including the purpose for visiting, to their partner for a while with their team. Then they role-play the scenario, using the vocabulary and phrases related to the purpose of the building. Throughout the role-play, the teacher listens to student dialogues to assess their understanding and use of relevant vocabulary and phrases.

Post-Activity

At the end of the lesson, the students play a game of Bingo. The teacher explains the rules of the game. The teacher distributes the Bingo Cards prepared before the lesson to the students and then calls out the names of the buildings (Annex-2). The students mark the pictures of the buildings they hear on their cards. The first student to mark all the squares on their card and shout 'Bingo!' wins the game.

Homework/Assignment

The teacher requires the students to visit at least three different public buildings (such as the library, post office, park, or museum) and maintain a diary of their visits, providing a description of the buildings and the rationale behind their choice of destination. The students engage in reflection on their experiences and the insights gained. They present the work they have prepared in EBA groups. The teacher asks the students to complete Vocabulary Exercise 1: Public Buildings and Vocabulary Exercise 2: Public Buildings as an assignment to reinforce the theme and the new words in the unit.

Related Skills: Collaboration, Digital skills

Before the Lesson

The teacher brings printed building flashcards. The teacher prepares a Places in the City worksheet. The worksheet contains pictures of public buildings and boxes beneath them where the students can write the corresponding names.

Lesson 3 (Class)

Pre-Activity

The teacher introduces a riddle game to the class. The teacher will read a riddle about a public building: "I have a vast collection of books and stories, yet I am unable to read or recount them. What am I ?" The students will attempt to guess the answer. The first student to correctly identify the answer will earn a point. The winner will be declared at the end of the game.

While Activity

As a whole class, the students briefly discuss the function of each public building. The teacher uses simple explanations and gestures to aid understanding. Then the class collaboratively creates create a reading text and comprehension check questions via an AI powered tool by using the keywords in the unit. They can use prompts like, "Write a brief summary of Sarah's day, including her visits to the library, bank, and post office and prepare comprehension checking questions." The teacher introduces the reading passage that describes a visit to different public buildings. The students read the passage aloud. Subsequently, the students are required to respond to a series of questions designed to assess their level of comprehension.

Post-Activity

When the students answer the questions, the teacher distributes the Places in the City worksheet prepared beforehand. The worksheet features images of public buildings and empty spaces for the students to write their names. The students may complete the worksheet individually or in pairs. The students may engage in peer review by exchanging worksheets and providing feedback to their classmates. Such activities can facilitate the development of critical thinking and communication skills.

Related Skills: Collaboration, Communication, Digital skills

Before the Lesson

Prior to the lesson, the teacher selects a public building and utilises an AI-powered tool to create a descriptive paragraph. A peer assessment form has been designed for the students to evaluate their peers' written work (Annex-3). Furthermore, a self-assessment form has been designed for the students to evaluate their own work (Annex-4).

Lesson 4 (IT Class)

Pre-Activity

The teacher initiates a memory game. The students are provided with a list of public buildings and then they close their eyes and attempt to identify the one that is missing.

While Activity

The teacher selects a public building and composes a descriptive paragraph using an AI-powered tool. The prompts can be used as follows: "Write a descriptive paragraph about the local library." Once the paragraph has been created and read, the class engages in a discussion about the key elements of the paragraph, including the building's appearance, purpose, and reasons for its appeal. The teacher requests that the students select one building and compose a descriptive paragraph about it. Subsequently, the students share their written work via a digital platform, creating digital boards or post-its after they complete their writings. The students dedicate time to reading each other's written work. The teacher encourages constructive feedback and the students evaluate each other's writings on clarity, organisation, and descriptive language (Annex-3).

Post-Activity

The students are required to revise their paragraphs in accordance with the feedback received. They must then produce a final draft of their descriptive paragraphs on a public building of their choice. The writing pieces with the most positive comments are selected for reading aloud to the class. Finally, the students are asked to provide a self-assessment of the knowledge gained during the lesson (Annex-4).

Homework/Assignment

The teacher assigns Vocabulary Exercise 3: Public Buildings and Grammar Exercise 4: Public Buildings on EBA to the students and wants them to complete these exercises.

Related Skills: Collaboration, Creativity, Digital skills

Evaluation/Assessment Methods/Tools

- EBA + grammar exercise
- EBA + vocabulary exercises
- Gamified measurement and evaluation
- Web tools for instant feedback
- Peer assessment form
- Self-assessment form

Vocabulary Presentation Transcript

Description: The teacher creates a presentation using interactive presentation tools where students engage with the following content.

Slide No.	Text	Visual
Slide 1 Cover page	**Places in our neighbourhood** Buildings in my neighbourhood	A visual of buildings such as a hotel, a museum, a school and a cafe
Slide 2	**Introduction** Hi everyone! Today, we're going to learn about different places in town that are really important for our everyday lives. Each location serves a different purpose in our community, from hospitals to libraries. Join me as we look at what these places mean and why it's important to know these words. Understanding this vocabulary will help us communicate effectively and feel more confident in our surroundings.	A blurry version of the image on the previous slide
Slide 3	**School** Students go to school to learn new things and improve their skills.	Visual of a school building
Slide 4	**Police Station** People go to a police station for help, to report crimes, or to get assistance from police officers.	Visual of a police station
Slide 5	**Hotel** People go to a hotel to have a place to sleep and relax while away from home.	Visual of a hotel
Slide 6	**Library** People go to a library to borrow books or find a quiet place to read and study.	Visual of a library
Slide 7	**Restaurant** People go to a restaurant to enjoy a meal with friends or family.	Visual of a restaurant

Slide 8	**Airport** People go to an airport to fly to different places.	Visual of an airport
Slide 9	**Cinema** People go to cinemas to watch movies for fun.	Visual of a cinema
Slide 10	**Hospital** People go to hospital to get medical attention when they're not feeling well.	Visual of a hospital
Slide 11	**Museum** People go a museum to see and learn about historical and cultural artifacts.	Visual of a museum
Slide 12	**Post Office** People go to a post office to send and receive mail and packages.	Visual of a post office
Slide 13	**Bank** People go to a bank to draw money.	Visual of a bank
Slide 14	**Pharmacy** People go to a pharmacy to buy medicine.	Visual of a pharmacy
Slide 15	**Cafe** People go to a cafe to enjoy coffee, tea, light meals, and to relax or socialise with others.	Visual of a cafe
Slide 16	**Bookshop** People go to a bookshop to find and buy books and magazines they want to read.	Visual of a bookshop
Slide 17	**Bakery** People go to a bakery to buy fresh bread, pastries, cakes, and other delicious baked goods.	Visual of a bakery
Slide 18	THANKS!	A visual of buildings such as a hospital, a bakery, a courthouse, a restaurant, a police station and bank

Bingo Cards Preparation Guide

Description: The teacher creates a 4-page visual using visual creation and editing tools where students engage with the following content.

Pages	Visuals
Page 1	The visual features a man holding a bingo card. Above him, the title "Bingo Card" is prominently displayed. The lower part of the visual depicts a variety of locations, including a school, a restaurant, a house, an airport, and a skyscraper.
Page 2	The visual features a man holding a bingo card. Above him, the title "Bingo Card" is prominently displayed. The lower part of the visual depicts images of a museum, a cinema, a hospital, a skyscraper and a library.
Page 3	The visual features a man holding a bingo card. Above him, the title "Bingo Card" is prominently displayed. The lower part of the visual depicts images of a skyscraper, a library, a funfair, a school and a cinema.
Page 4	The visual features a man holding a bingo card. Above him, the title "Bingo Card" is prominently displayed. The lower part of the visual depicts images of a bank, a shopping mall, a police station, a museum and a hospital.

Peer Assessment Form

This form has been designed to evaluate your friend's work. For each criterion, select the grade that best reflects your friend's performance on a scale of 1 to 4.

Your Name: **Your Friend's Name:**

CRITERIA	GRADES			
	Needs Improvement (1)	Fair (2)	Good (3)	Excellent (4)
Clarity: The text is clear and easy to understand.				
Organization: The text is well-structured with a clear introduction, body, and conclusion. Ideas are presented in a logical order.				
Grammar: The text is grammatically correct, with proper use of tenses, subject verb agreement, and punctuation.				
Descriptive language: The text uses vivid and descriptive language to create a clear picture of the public building, engaging the reader's senses.				
Fluency: The text flows smoothly and reads naturally, with a good rhythm and pace.				

Feedback:

.....

.....

Self-Assessment Form

This form has been designed to evaluate your own work. For each criterion, select the rating that best reflects your performance.

Name/Surname :

CRITERIA	RATINGS		
	ALWAYS	SOMETIMES	NEVER
I can use vocabulary related to public buildings.			
I can practice using prepositions of place.			
I can write a short paragraph describing a public building in their community.			
I can ask and answer basic questions about public buildings.			
I can create a simple dialogue about visiting a public building.
