

FUN AT THE FAIR

Course	English	Grade	6th Grade	Duration	3 lesson hours (3x40')

This scenario is designed to assist teachers in providing an effective learning experience utilising technology. The teacher may utilise this scenario, which is presented as an exemplar, or adapt it to align with the specific requirements of the students and the physical conditions of the educational institution.

Overview

This technology-enhanced learning scenario aims to build the students' language skills through activities centred on funfair experiences and emotions. Digital tools, gamified exercises, and collaborative tasks

Learning Goals

Students

- Identi•

Course Objectives

- E6.5.L1. Students will be able to recognize the words related to the expression of emotions.
- E6.5.SI1. Students will be able to talk about and express the feelings and personal opinions about places and things.
- E6.5.SP1. Students will be able to use various simple expressions to state the feelings and personal opinions about places and things.
- E6.5.R1. Students will be able to understand general meaning in simple texts related to the feelings and personal opinions about places and things.
- E6.5.R2. Students will be able to read specific information on a poster about a certain place.

- Collaboration

PREPARATION

Learning Approaches, Methods, Strategies

- Active learning
- Cooperative learning
- Gamification
- Storytelling
- Onion ring technique

Tasks

Teacher

- Prepares and guides the learning process using digital tools and matching games.
- Designs and organises group and individual tasks to promote active participation.
- Supports the students during digital activities by giving clear instructions and feedback.
- Monitors group collaboration and encourages peer learning.
- Facilitates discussions and helps the students express their ideas in English.
- Ensures that all students are engaged in both group and individual activities.

Student

- Participates actively in group and individual learning tasks.
- Uses digital tools to complete matching games and interactive exercises.
- Works collaboratively with group members and shares responsibilities.
- Expresses feelings, preferences, and opinions using target language.
- Follows instructions, asks questions when needed, and gives feedback to peers.
- Reflects on their own learning and tries to improve their speaking and vocabulary skills.

Instructional Tools / Technologies

Hardware

- Interactive whiteboard
- Computer
- Tablet

Online Tools

- eba.gov.tr
- Web tools for matching activities
- Gamification web tools
- Digital story creation tools
- Animation creation tools
- Gamified measurement and evaluation web tools
-

APPLICATION

Activities

Before the Lesson

The teacher asks the students to complete the following exercises on EBA: Vocabulary Exercise 1: At the Fair and Reading Exercise: Get Ready to Go to the Funfair! . The teacher designs an activity titled Guessing Game using one of gamification web tools. The teacher also creates a digital story titled A Day at the Funfair utilising a digital story creation tool to enhance the students' engagement and support language development in the classroom (Annex-1). The teacher prepares an activity named Listen & Match and an excercise titled Funfair Feelings using web tools for matching activities.

Lesson 1 (Class)

Lesson 2 (IT Class)

Pre-Activity

The teacher initiates the Find What is Behind activity. In this game, an image slowly begins to appear on the screen. The instruction is simple: Buzz in when you can answer the question. This encourages the students to pay close attention as the image gradually becomes clearer. The aim is to recognise the picture before anyone else. Once a student thinks they know what it is, they should buzz in and give their answer. This fun and competitive activity promotes visual focus, quick thinking, and active engagement in the classroom.

While Activity

Following the gamification activity, the students watch the animation titled Fun at the Fair, in which different characters present their posters about their favourite funfair activities (Annex-2). In the animat9.6 (e)75 (s.5 9(ay. 02EnTE81.4 9h)-1 a)-12. ut9 (.2 (o)-6.(o)96 (02D4-10. (on)-10 (i)-12. (r f)4.2 (a28 Tm (h12.4

Post-Activity

For the assessment, the teacher moves on to the Find the Pair activity. In this activity, the students listen to sentences about funfair experiences such as liking the Ferris wheel, eating popcorn or cotton candy, and expressing preferences for different rides. They tap a pair of tiles at a time to reveal if they are a match. This activity helps improve the students' listening comprehension, memory, and matching skills, as they practice listening for specific information and connecting related ideas.

Before the Lesson

The teacher prepares an activity called Funfair Favourites using a web tool for matching activities, and another activity titled Funfair Days

Post-Activity

For the assessment, the teacher continues with the Funfair Days activity. The students are asked to drag and drop the pins to their correct place on the image (Annex-3). This activity helps the students review vocabulary related to funfair items and improves their ability to identify and locate objects in English. It also makes learning more interactive and engaging.

Homework/Assignment

The teacher asks the students to design a single digital poster that includes their three favourite activities at the fair. The students are encouraged to use one of the poster and flyer creation tools to add images, keywords, and creative elements. After completing their posters, the students record
