INNOVATION AND EDUCATIONAL TECHNOLOGIES
GENERAL DIRECTORATE

LET'S FIND SOMEWHERE PEACEFUL!

Course	English	Grade	6th Grade	Duration	3 lesson hours (3x40')

This scenario is designed to assist teachers in providing an effective learning experience utilising technology. The teacher may utilise this scenario, which is presented as an exemplar, or adapt it to align with the specific requirements of the students and the physical conditions of the educational institution.

Overview

This learning scenario integrates digital tools to enhance the students' skills in identifying comparatives and discussing present events. The aim of this integration is to facilitate the enhancement of the students' creativity and productivity in designing new digital products. It serves as an example of innovative technological integration in an educational context. The students participate in a range of interactive activities that are designed to facilitate the development of their communication, collaboration and digital skills. The scenario encompasses the delivery of presentations to inform the students about the present events, the utilisation of videos to illustrate structures employed for comparatives, and the incorporation of games to enhance student motivation. Utilising cooperative learning methodologies, integrating Marketplace activity and incorporating technology-based learning approaches enhances student engagement and facilitates vocabulary acquisition. The teacher plays a crucial role in facilitating the learning process by utilising digital tools for games, presentations, videos and visual aids to establish a conducive and motivating learning environment.

In the evaluation phase, various methods will be employed to assess student progress, including matching activities, and games. These strategies aim to make the assessment process more engaging and enjoyable for students. To this end, the teacher will provide immediate feedback on all activities throughout lessons.

Key Concepts: Comparatives, Present events, Marketplace activity

Learning Goals

Students

- Identify and interpret sentences and expressions that refer to present events.
- Explore the differences between life in the city and village life.
- Enhance communicative competence.
- Leverage digital tools to foster deeper engagement and understanding.
- Engage in collaborative creation of a digital product.
- Integrate information technology to design a poster.

Course Objectives

- E6.3.L1. Students will be able to identify expressions and phrases related to present events.
- E6.3.L2. Students will be able to pick up the expressions of comparing things.
- E6.3.SI1. Students will be able to ask people questions about what they are doing at the moment.
- E6.3.SP1. Students will be able to describe people doing different activities.
- E6.3.SP2. Students will be able to make comparisons between two things.
- E6.3.R1. Students will be able to understand visually supported, short and simple texts.

Related Skills

- Collaboration
- Communication
- Digital skills
- Active listening
- Critical thinking
- Creativity
- Productivity
- Problem-solving
- Cultural awareness
- Digital literacy

PREPARATION

Learning Approaches, Methods, Strategies

- Technology-based learning
- Cooperative learning
- Marketplace technique

Tasks

Teacher

- Creates a video about farm life.
- Prepares visuals and various games.
- Designs a presentation about present events.
- Guides the students to collaborate on creating a digital product.
- Encourages the students to play an active role in lessons.
- Utilises interactive whiteboards and other digital tools effectively.

Student

- Identifies the vocabulary related to the city and village life.
- Recognises the structures that describe present events.
- Compares the city and village life.
- Engages actively with the lesson, following the teacher instructions.
- Collaborates effectively with classmates in digital projects.
- Participates in activities to build digital competence.
- Takes responsibility for activities and assignments.

Instructional Tools / Technologies

The web tools provided in this scenario are offered as examples. Teachers are free to select and apply any tool they see fit, according to the web tools category. It is recommended that teachers review the web tool in question before use and have a good understanding of the tool's interface.

Hardware

- Interactive whiteboard
- Tablet
- Computer

Online Tools

- eba.gov.tr
- Visual creation and editing tools
- Video editing tools
- Interactive presentation tools
- Poster and flyer creation tools
- Web tools for instant feedback
- Web tools for matching activities
- Gamified measurement and evaluation web tools

Instructional Materials / Tools

- A set of 20 spaghetti sticks
- One yard of string
- One yard of tape
- A marshmallow

APPLICATION

Activities

Before the Lesson

The teacher creates a video titled Life on the Farm using one of the video editing tools (Annex-1). Then, for the assessment, the teacher prepares a game titled Reach the Word using one of the gamified measurement and evaluation web tools.

Lesson 1 (Class)

Pre-Activity

The teacher begins the lesson by asking the students if they know the difference between city and village life and then invites them to reflect on this. After this discussion, the teacher plays the Downtown video about the city and the village on EBA, and the students identify the differences between city and village life.

While Activity

Following the downtown video, the teacher proceeds to another video titled Life on the Farm, wherein the students identify simple phrases that are used for the purpose of comparison. (Annex-1). The teacher uses the video to prepare the students for the subsequent discussion activity and to capture their attention. Before the discussion begins, the teacher introduces the Reach the Word game, in which the students match visuals with vocabulary items such as 'skyscraper', 'kiosk' and 'crowded'. This activity serves to review and reinforce the related vocabulary that the students can utilise during the discussion. The teacher then divides the class into two groups to discuss the following statements: 'Living in the city improves the quality of life' and 'Living in the village improves the quality of life'. The groups can use chatbots or search engines to conduct detailed research. Within each group, the students can share roles such as opening speaker, supporting speaker, speaker responding to arguments from the other side, and closing speaker. Each speaker may also be assigned a specific time limit. When the groups are ready, they form two circles to begin the discussion. The objective of this activity is to cultivate critical thinking, active listening and structured speaking while using comparatives in a captivating manner. The teacher provides ongoing feedback to facilitate student engagement and progress throughout the activity.

Post-Activity

Following the previous discussion on the use of comparatives, the teacher implements the Marketplace activity, an approach employed in active learning. Using one of the web tools for instant feedback, the teacher creates a marketplace and asks the students to write two sentences comparing city and village life. Once all the students have finished entering their data, the teacher launches the application in presentation mode via the interactive whiteboard. A volunteer student is then invited to read a chosen sentence aloud and offer their personal interpretation of it.

Related Skills: Communication, Collaboration, Active listening, Critical thinking, Cultural awareness, Digital skills, Digital literacy

Before the Lesson

The teacher creates a presentation titled Everyone Is Busy using one of the interactive presentation tools (Annex-2). Then, for the assessment, the teacher designs a Farm Quiz using one of the gamified measurement and evaluation web tools (Annex-3).

Lesson 2 (Class)

Pre-Activity

The teacher initiates the lesson with an Agile, team-based game to foster interaction, spark interest across diverse learner profiles, and ensure inclusive engagement. The teacher forms groups of four or five students and provides each group with 20 spaghetti sticks, one yard each of string and tape, and a marshmallow. Each team then has five minutes to build the tallest possible structure using the materials provided. The marshmallow must be at the top of the structure. The structure needs to be free-standing so the students cannot glue it to the table. Additionally, the students cannot rip, eat or break the marshmallow but they can pierce it. The team that builds the tallest structure which remains standing for at least 20 seconds wins. The teacher uses an example sentence to compare the height of the constructions and asks the students to continue comparing them. The objective of this activity is to promote interaction while practising comparative language.

While Activity

Following this game, the teacher proceeds to the presentation titled Everyone Is Busy, in which the students identify the expressions and phrases related to present events (Annex-2). The teacher periodically pauses the presentation to ask questions such as "What is Daisy's brother doing?" and "What are the cats doing?", with the aim of creating an interactive learning environment and encouraging the students to speak up. To practise with present events further, two students volunteer to stand at the front of the classroom. One student acts out or mimes a specific event, while the other asks, "What are they doing?". The rest of the class is then invited to respond. Throughout the activity, the teacher provides timely feedback.

Post-Activity

After the previous presentation, to assess the comprehension, the teacher initiates the Farm Quiz, in which the students answer the multiple-choice questions (Annex-3). The students work in pairs, with one student posing the question and the other providing the response.

Related Skills: Communication, Collaboration, Active listening, Critical thinking, Problem-solving

Before the Lesson

The teacher designs a matching activity titled What Are They Doing? using one of the web tools for matching activities (Annex-4). Then, the teacher creates a visual titled Describe What Is Going On using one of the visual creation and editing tools.

Lesson 3 (IT Class)

Pre-Activity

The teacher initiates the What Are They Doing? matching activity, in which the students look at the visuals and match the given sentences with the corresponding visual (Annex-4). The teacher shares the link, and the students work in pairs to identify where the characters are and what they are doing. The objective of this activity is to practise using phrases related to present events.

While Activity

After the matching activity, the teacher selects two volunteer students to act as narrators and displays the Describe What Is Going On visual exclusively to the narrators. The remaining students are organised into groups of three; however, they are not permitted to view the visual aids. The narrators must provide a comprehensive description of the scene and the characters' actions. The other students then try to design the scene using one of the visual creation and editing tools available to them. The objective of this activity is to promote interaction while practising the present continuous tense. Through this activity, the students learn to collaborate to create a final product.

Post-Activity

Once all groups have finished designing their visuals, they share their work on EBA. The teacher and the students then compare the visual materials to select the one that most closely resembles the original.

Homework/Assignment

The students are assigned to work in groups of four in order to design two posters. One poster should depict city life, while the other should depict village life. They are required to use one of the poster and flyer creation tools for this task. Furthermore, the posters should draw a comparison between city and village life. The students are assigned to complete Reading Exercise: Carol's Neighbourhood on EBA. The students are required to read the passage and answer the questions.

Related Skills: Communication, Collaboration, Active listening, Digital skills, Critical thinking, Productivity

Evaluation/Assessment Methods/Tools

- EBA + reading exercise
- Gamified measurement and evaluation web tools
- Web tools for matching activities
- Web tools for instant feedback

Annex-1: The Transcript of 'Life on the Farm' Video
Annex-2: The Transcript of 'Everyone Is Busy' Presentation
Annex-3: Farm Quiz Questions
Annex-4: What Are They Doing? Matching Activity

The Transcript of 'Life on the Farm' Video

Description: The teacher creates a video using one of the video editing tools, where the students identify phrases related to farm life and comparatives.

First Page: Write, “Life on the farm”, and attach visuals of farm animals.

Second Page: Write, “Hello, my name is Daisy. This is my brother, Billy and my father, John. We live with our family on a farm.” and attach videos of a family living on the farm.

Third Page: Write, “Living on the farm is more peaceful than living in the city because we are close to nature.” and attach videos of farm life.

Fourth Page: Write, “Living on the farm is more enjoyable than living in the city because we have lots of animal friends.” and attach videos of farm animals.

Fifth Page: Write, “This is Horsedo and his friend Donkedo. Donkedo is smaller than Horsedo.” and attach videos of a horse and a donkey.

Sixth Page: Write, “This is Roosty and his friend Henoyoo. Roosty is bigger than Henoyoo.” and attach videos of a rooster and a chicken.

Seventh Page: Write, “This is Dogido and her friend Catito. Dogido is more friendly than Catito.” and attach videos of a dog and a cat.

Eighth Page: Write, “This is Cowwo and her friend Goatto. Goatto is shorter than Cowwo.” and attach videos of a cow and a goat.

Ninth Page: Write, “Come and enjoy the life on the farm. Thank you :)” and attach videos of a farmhouse.

The Transcript of 'Everyone Is Busy' Presentation

Description: The teacher creates a presentation using one of the interactive presentation tools, wherein the students identify expressions and phrases related to present events.

First Page: Write, "Farm life is enjoyable, but it is busy. Let's go and see what everyone is doing." and attach visuals of a girl and a farmhouse.

Second Page: Write, "My brother, Billy **is riding** Horsedo." and attach a visual of a boy riding a horse.

Third Page: Write, "My twin sister, Lilly **is feeding** chickens and chicks." and attach a visual of a girl feeding chickens.

Fourth Page: Write, "My mum **is picking** vegetables. Our vegetables are fresh." and attach a visual of a woman picking vegetables.

Fifth Page: Write, "My dad **is driving** a tractor." and attach a visual of a man driving a tractor.

Sixth Page: Write, "My grandmother **is watering** the flowers. She loves flowers." and attach a visual of an old woman watering the flowers.

Seventh Page: Write, "My uncle **is milking** Cowwo." and attach a visual of a man milking a cow.

Eighth Page: Write, "The cats **are sleeping**. They are lazy." and attach visuals of sleeping cats.

Ninth Page: Write, "The dogs **are playing** with a ball. They are friendly." and attach visuals of playing dogs.

Tenth Page: Write, "Come and enjoy the life on the farm." and attach visuals of a farmhouse.

Farm Quiz Questions

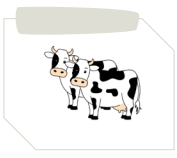

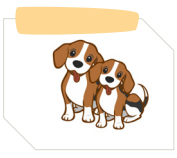

Dear students, answer the questions related to 'Everyone is Busy' presentation.

1. Where do Daisy and her family live?
A) In the city
B) In the town
C) On the farm
D) In the garden

2. Who is milking the cow on the farm?
A) Daisy's uncle
B) Daisy's grandmother
C) Daisy's sister
D) Daisy's brother

3. Who is riding Horsedo?
A) Daisy's mother
B) Daisy's father
C) Daisy's brother
D) Daisy's sister

4. Who is feeding the chickens?
A) Daisy's grandmother
B) Daisy's grandfather
C) Daisy's mother
D) Daisy's twin sister

5. Which animals are playing with the ball?
A) 
B) 
C) 
D) 

6. Are the cats on the farm sleeping?
A) No, they aren't.
B) No, it isn't.
C) Yes, it is.
D) Yes, they are.

7. What is Daisy's grandmother doing?
A) She is feeding the chickens.
B) She is watering the flowers.
C) She is milking the cow.
D) She is riding the horse.

8. What is Daisy's father doing?
A) 
B) 
C) 
D) 

9. What is Daisy's mother doing?
A) She is picking vegetables.
B) She is watering the flowers.
C) She is feeding the chickens.
D) She is milking the cow.

What Are They Doing? Matching Activity

Dear students, please look at the visuals. Tell where the people are and what they are doing.
