GENERAL DIRECTORATE

DRAW YOUR HOLIDAY

Course	Grade	Duration
English	6th Grade	3 lesson hours (3x40')

This scenario is designed to assist teachers in providing an effective learning experience utilising technology. The teacher may utilise this scenario, which is presented as an exemplar, or adapt it to align with the specific requirements of the students and the physical conditions of the educational institution.

Overview

This technology-enhanced learning scenario places a premium on the cultivation of creativity, collaboration, digital literacy, and effective communication. By engaging in a variety of activities related to storytelling, audio-visual creation, and writing, the students are able to cultivate these essential skills. In collaboration, the students construct narratives about a range of vacation experiences, applying their understanding of past tense grammatical patterns. Subsequently, the written narratives are transformed into engaging audio clips through the utilisation of artificial intellgence powered tools or read-aloud techniques.

To further consolidate their comprehension and creativity, the students attentively listen to their group's audio stories, taking comprehensive notes to inform their subsequent visual representations using shape and drawing tools. Additionally, the students complete story summary forms and actively participate in group discussions to share their work and gain valuable insights from their peers. To improve their writing proficiency, the students analyse sample texts, engage in peer review, and conduct research on personal experiences. They then write independently and engage in peer review to refine their work. To reinforce vocabulary acquisition and foster a fun learning environment, the students participate in a game of charades. As a homework assignment, the students conduct research on a holiday observed in another culture and present their findings in a format of their choice.

Learning Goals

Students

- Develop active listening skills.
- Engage in creative storytelling.
- Demonstrate their holistic understanding of a story through their drawing.

Course Objectives

- E6.7.L1. Students will be able to spot the activities about holidays in oral texts.
- E6.7.SI1. Students will be able to talk about their holidays.
- E6.7.W1. Students will be able to write short and simple pieces in various forms about holidays.
- E6.7.R1. Students will be able to understand short, simple sentences and expressions related to past activities.

Related Skills

- Collaboration
- Creativity
- Digital skills
- Communication

PREPARATION

Learning Approaches, Methods, Strategies

- Cooperative learning
- Active learning

Tasks

Teacher

- Guides the learning process of the students.
- Carefully selects and integrates web tools to the learning activities.
- Fosters collaboration amongst the students and encourages teamwork.
- Creates a supportive and inclusive learning environment that encourages the students to actively participate.
- Provides timely and constructive feedback to help the students improve their learning.

Student

- Actively engages in own learning.
- Collaborates effectively on group tasks.
- Enhances technological proficiency.
- Develops creative thinking skills.

Instructional Tools/ Technologies

The web tools provided in this scenario are offered as examples. Teachers are free to select and apply any tool they see fit, according to the web tools category. It is recommended that teachers review the web tool in question before use and have a good understanding of the tool's interface.

Hardware

- Interactive whiteboard

Online Tools

- eba.gov.tr
- Audio editing tools
- Artificial intelligence powered tools
- Shape and drawing tools
- Web tools for group assessment
- Visual creation and editing tools
- Interactive presentation tools

Instructional Materials

- Marker
- Paper

APPLICATION

Activities

Before the Lesson

The teacher prepares a Holiday Types presentation by using one of the interactive presentation tools. The teacher prepares a story summary form (Annex-1).

Lesson 1 (IT Class)

Pre-Activity

The teacher initiates the Holiday Types presentation and provides an explanation. The teacher leads a holiday vocabulary game involving scrambled words and clues. The students compete to unscramble holiday-related words and phrases working in teams by using clues provided by the teacher. The first team guessing the correct one earns one point.

While Activity

The teacher informs the students that in this lesson, they will collaborate in groups to create stories using past tense patterns. These stories will then be transformed into audio clips using artificial intelligence powered tools. To inspire the students, the teacher presents images of different vacation types. Each group then selects a vacation type and begins writing a story about it. The teacher provides a story summary form to guide the students in their writing process (Annex-1). The students are encouraged to use dictionaries, seek help from the teacher or their groupmates, and apply their knowledge of past tense patterns.

Post-Activity

Each group writes their own story, following the provided story structure outline. After completing their stories, the teacher explains that they will be converting these stories into audio clips. If the school lacks the necessary equipment, one group member can read their story aloud for the class.

Related Skills: Collaboration, Creativity, Digital skills, Communication

Before the Lesson

The teacher reminds the students that after listening the audio clip they will illustrate the stories by one of the shape and drawing tools in this lesson. The teacher prepares a group evaluation form (Annex-2).

Lesson 2 (IT Class)

Pre-Activity

The teacher introduces key vocabulary relating to the vacation theme, such as destination, journey, beach, mountains, activities, souvenirs and river. The teacher then requests that the students discuss their preferred vacation activities, thus enabling them to apply the new vocabulary in context. This preliminary exercise serves to engage the students and prepare them for the main lesson.

While Activity

After listening to their own stories and those of their classmates, the students will complete the story summary form distributed in the previous lesson, ensuring they include specific details in their drawings. They will also have the opportunity to ask questions to other groups.

The students will listen to other groups' audio stories. While listening, each group will take detailed notes. The teacher will then guide the students in creating visual representations of the stories by using one of the visual creation tools based on their notes. The students have the option to utilise the shape and drawing tool to generate their illustrations. Alternatively, they may choose to draw their images directly on their notebooks.

Subsequently, the teacher assigns a timeframe for the students to create their illustrations. Upon completion, each group presents their illustrations to the class, and all the students review both the stories and illustrations. Finally, the teacher completes a group evaluation form prepared with one of the web tools for group assessment (Annex-2).

Post-Activity

After analysing the evaluation forms, the teacher identifies the group with the highest score. To ensure easy access to the stories and illustrations, the teacher creates a QR code linking to the content. This QR code is then shared on EBA, making it accessible to all the students in the class. The students can scan the code to access the content at any time.

Related Skills: Creativity, Collaboration, Digital skills, Communication

Before the Lesson

The teacher finds a sample writing text on EBA and prepares for the game they will play in the class. The teacher designs word cards and brings them to the class.

Lesson 3 (IT Class)

Pre-Activity

The students are divided into pairs or small teams. The activity begins with a holiday-related word, such as "beach". Each pair then takes turns saying words associated with the given topic, attempting to complete as many words as possible within a given time frame. These words could include sand, waves, sunscreen, shells, and surfing. The objective of this exercise is to enhance vocabulary and stimulate creative thinking related to holiday concepts.

While Activity

The teacher shares Writing Exercise: Colarado as a sample text with the students to improve writing skills. The students read and analyse the sample text about a holiday experience. They brainstorm their own memories and plan their narratives using the techniques from the sample. After writing independently, the students engage in peer review and share their work with the class. This process enhances their writing abilities, allows them to share their personal experiences, and facilitates learning from one another.

Post-Activity

After the writing activity, in order to reinforce holiday vocabulary the students play a game of charades. Teams act out words or draw pictures related to the holiday. The first team to guess correctly earns a point. This game encourages teamwork, creativity, and vocabulary development.

Homework/Assignment

The students are required to explore a holiday from a different culture through research. They can choose to share their findings in a report, presentation, or creative work.

Related Skills: Collaboration, Creativity, Digital skills, Communication

Evaluation/Assessment Methods/Tools

- EBA + writing exercise
- Web tools for group assessment

Annex-1: Story Summary Form
Annex-2: Story & Illustration Group Assessment Form

Story Summary Form

This form has been designed for students to evaluate the story. Include details about the characters, setting, plot, and theme.

Group Name: .....

What is the name of the story?

.....

.....

Where does the story take place?

.....

.....

What type of holiday is the story about?

.....

.....

What are the main events of the story?

.....

.....

Who are the characters in the story?

.....

.....

Story & Illustration Group Assessment Form

This form has been designed for the teacher to assess the groups' work. For each criterion, select the option that best reflects the group's performance and indicate your choice by checking the corresponding box.

Group Name: .....

CRITERIA	Yes	Partially	No
The story summary accurately captures the main points of the narrative.			
The integration of technology with audio and illustrations significantly enhances the storytelling experience.			
The illustrations effectively complement the narrative, enhancing the overall coherence and impact of the story.			
The group members demonstrated effective collaboration and teamwork throughout the project.			
The story and illustrations display a high level of creativity and originality.			
The group effectively utilised digital tools and resources to create their story and illustrations.			
The group delivered a clear and engaging presentation of their story and illustrations.
